

SPARKPOWER
CORP

MEDIUM VOLTAGE

NORTH AMERICA'S ELECTRICAL CONTRACTOR FOR LOGISTICS AND MATERIAL HANDLING PROJECTS

Spark Power is a full-service, industrial electrical contractor that provides a unique blend of quality, professional electrical construction and design-build services that are code compliant. Our mission is to ensure all buildings we work on follow compliance prior to tenant fit-up, including base building systems (i.e. distribution, fire alarm, lighting, and exit/emergency).

Spark Power is well respected for its technical expertise and executing complex projects on time and on budget. We always put our customers first, and it is with this commitment in mind that we continue to grow our locations across North America and provide a full set of electrical construction and design-build services.

Having delivered successful projects for the food and beverage, auto, oil and gas, industrial manufacturers, and renewable industries, we understand the urgency of project timelines, as well as the critical nature of quality workmanship. Spark Power provides local presence and in-depth knowledge to improve and create efficiencies for building and maintaining the reliability of electrical systems that will support your building and/or facility for years to come.

KEY AREAS OF EXPERTISE

- Installation of switchgear
- Acceptance testing
- Maintenance testing
- Cable installation and termination
- Engineering and procurement MV systems

CAPABILITIES

- Installation of new systems
- Upgrades of existing systems
- Commissioning and Startup
- Third party testing of system
- Engineered solutions

PROJECT EXPERIENCE

It has been our privilege to serve as the lead electrical contractor in the successful delivery of Medium Voltage projects for our industry-leading customers, including:

Electric Vehicle Infrastructure - value \$1,300,000.00

Design assist and complete electrical install of services such as medium voltage switchgear and transformers, complete distribution system, power to owner's equipment, and acceptance and maintenance testing.

Constellation Winery - value \$150,000.00

Design assist, complete electrical install of services such as medium voltage switchgear and transformers, complete distribution system, system evaluation, maintenance, and acceptance testing.

Bridgestone Tire- value \$50,000.00

Maintenance testing on 15kV, 5kV and 480v systems.

Caterpillar San Antonio - value \$100,000.00

15kV and 480v maintenance testing, IR Scans, and arc flash study.

Anita's Food - value \$100,000.00

Complete evaluation of electrical system, IR Scans, recommendations, repairs on system deficiencies, planning, engineering, and installation of new systems of both 15kV and 480v expansion to customers system.

ONLY ZERO IS ACCEPTABLE

When it comes to safety, **only zero is acceptable. Zero** accidents at work.
Zero compromise to prioritizing safety.

Spark Power Corp ("Spark Power") is the leading independent provider of end-to-end electrical services, operations and maintenance services, and energy sustainability solutions to the industrial, commercial, utility, and renewable asset markets in North America. We work to earn the right to be our customers' Trusted Partner in Power™. In the state of California, we operate under license #533593. In the state of Texas, we operate under license #TECL-34613.
